# TESTIMONIALS

“

I wanted to mention that it was a very good event organized by your team. It helped in networking and meeting people from across the retail sector and PE teams. For some of the sessions that I could attend, I will say that they were good in terms of understanding the industry issues / trends and views of people towards the same. I look forward to attending more such sessions in future to be organized by MAPIC India team

“

Clovia participated in the shopping centre summit with a clear objective of connecting with more malls, franchisees and accelerate the growth of our offline channel with relevant partnerships. We were very happy to have achieved this goal successfully, all thanks to the brilliant participation from various companies and a seamless show executed by Mopic India. Heaps of learnings from the participating brands as well. Would love to be a part of it again.
